

**SALES OF WEBSPY INTERNET MONITORING SOFTWARE SURPASS \$400,000 IN Q3**

---

**Thursday, 17 April 2003 (Perth, Western Australia):** WebSpy Ltd's internet monitoring and management software team recorded its highest ever sales quarter at just over \$408,000. The quarter ending March 2003 produced approximately 23% more in sales revenue than the previous quarter.

Last year's income of \$1.112 m for the WebSpy product alone is expected to be surpassed before the end of April, and the team is hopeful of achieving over \$1.5m for the financial year.

In light of the Company's recent announcement on sales of Inspection Manager™ software and services (15<sup>th</sup> April), the current consolidated sales performance for the Company is expected to result in an operational cash accumulation in the six-month period to 30 June 2003.
